PRODUCT OWNER | SYSTEM ANALYST | SOFTWARE ENGINEER

Results-driven **Product Owner** and **System Analyst** with a strong software engineering background and hands-on experience leading cross-functional teams, owning product lifecycles, and driving business aligned technical solutions. Proven ability to translate complex business needs into clear product requirements, prioritize backlogs, manage stakeholders, and ensure high-quality delivery across multiple large-scale systems. Strong advocate of Agile practices, continuous improvement, and user-centered product design.

PROFESSIONAL EXPERIENCE

Soft Remit, USA - Freelance

Dec 2025 - Present

System Analyst

- Lead the creation and ownership of **Software Requirements Specification (SRS)** documents across core remittance systems.
- Elicit, analyze, and document business, operational, and compliance requirements from stakeholders.
- Ensure requirements traceability, scope clarity, and alignment between business needs and delivered features.
- Analyze competitor products and market trends to identify gaps, differentiators, and opportunities that inform product strategy and roadmap decisions.

Pharaon Group, Damascus, Syria - Full Time

Apr 2025 - Present

System Analyst | Mobile Developer

- Own and manage **Pyramind**, an enterprise platform used by **100+ active users** across multiple companies in Pharaon Group.
- Lead product ownership for **Like TV** systems, including roadmap planning, backlog prioritization, and delivery.
- Assess and rationalize **21+ legacy and active projects**, addressing technical debt, quality, and scalability.
- Act as the main contact between management, operations, and technical teams to ensure business alignment.
- Design and develop **3+** cross-platform **mobile applications** using Flutter, contributing to architecture decisions, performance optimization, and deployment processes.

Ikoniks, Germany - Full Time

Aug 2024 – Apr 2025

Project Manager

- Lead a team of developers in delivering scalable software solutions.
- Manage project timelines, Agile processes, and client communications.
- Ensure efficient workflow using Scrum methodologies and project tracking tools.

Ikoniks, Germany - Full Time

Jun 2024 – Aug 2024

Flutter Developer

- Developed and maintained the Damen mobile app using Flutter.
- Collaborated with designers and backend developers to implement modern UI/UX principles and ensure seamless integration with backend services.
- Applied state management solutions (Provider, GetX, Bloc) to improve app responsiveness and

scalability.

Freelance, Damascus, Syria

Jan 2024 – Jun 2024

Flutter Developer

- Designed and built cross-platform mobile applications for diverse clients, ensuring high performance and user satisfaction.
- Implemented modern UI/UX principles and optimized app performance for both iOS and Android platforms.

Solunyx, Syria - Full Time

Apr 2023 – Jan 2024

Flutter Developer

- Developed and maintained mobile applications, meeting strict deadlines and ensuring high-quality deliverables.
- Led the implementation of state management solutions (BLoC, GetX) to enhance app performance and maintainability.
- Optimized app responsiveness and backend integrations, ensuring seamless user experiences.

WeCan, Amman, Jordan - Full Time

Oct 2022 – Mar 2023

Flutter Developer

- Enhanced and maintained cross-platform applications.
- Conducted code reviews, performance testing, and documentation.

EDUCATION

Damascus University

Sep 2019 – Nov 2024

Bachelor's Degree in Information Technology Engineering

- Specialization: Software Engineering
- GPA: 82%

KEY SKILLS

Mobile & Software Development:

- Flutter Framework: Dio, Retrofit, HTTP, Hive, SQFLite, Background Services, Shared Preferences, Laravel Pusher.
- State Management: Provider, GetX, Bloc and Riverpod.
